CSD > LC > GC > Asset Servicer > End Investor

CSD > LC > GC > Asset Servicer > End Investor

June 14th 2022 brainstorming session outcome

Global SMPG MPs:

- Too many documents, we should try to merge some
- Document title should include clear indication of the version/date
 - Notification of changes ? Timeframe for implementation?
- MP changes
 - should be reviewed yearly for each SR (for S&R updates are not necessarily SR driven)
 - Process for party to request change – opportunity to better define
 - Tracked changes
 - Future considerations/open items tracking
- Look again for volunteers to become owners/'god fathers' – it is our core responsibility and we have to tackle it (random assignment to be considered if other ways fail)
- Try live reviews during physical meetings
- Need time to prepare for discussions – need to announce the MPs to be reviewed well in advance

June 14th 2022 brainstorming session outcome

Local SMPG MPs:

- We should reach out to all NMPGs with request to review their respective MPs and clearly indicate last review timestamp
- Local MP should cover local specific requirements
BUT: they should provide full, easy and clear guideline about instructing in the particular
- SMPG should have right to remove incorrect and misleading MPs from the smpg.info website - „red light”
BUT: – dated but still accurate MPs is a different case – „yellow light”
- NMPG responsibilities should be described more specific in SMPG by-laws

June 14th 2022 brainstorming session outcome

Agreed action:

- Overall structure of Settlements MPs
 - Recommendation of market practices to merge
 - Obsolete vs. Active decision based on volumes of users on site links
 - Establish owner name for each unassigned MP
 - Identify MPs of 'light changes' vs. 'operational changes'
- Technical consideration: Member section on MyStandards for storing SMPG sensitive documentation
- MP documentation best practice
 - Create coversheet template and rules around the format/dates
 - Annual review with note of date reviewed
 - Expected from local market practice groups
